

SEMI-FINISHED SILVER PRODUCTS FOR ELECTRICAL/ELECTRONIC SECTOR

Silver has the highest electrical and thermal conductivity of all metals. AgTech offers a comprehensive line of innovative products in silver for the manufacturing of contacts, fuses and electrical/electronic/industrial components. The product assortment includes:

- High-purity fine silver wire (min. purity Ag 999‰)
- Silver/nickel wire in various alloys (Ag80/Ni20, Ag90/Ni10, Ag99,85/Ni0,15)
- Super-fine high-purity Ag 999‰ silver foil (minimum thickness 0,011mm) 350mm-wide coils
- Bespoke products manufactured at our state-of-the-art Engineering Division
